

July 4th Celebrations Kicked Up a Notch: Projector123.com Delivers High-Tech Projectors Overnight for Larger-than-Life Fireworks Displays

From backyard barbecues to professionally-planned July 4th events, a high-quality projector from Projector123.com brings a unique, theater-style experience to viewing fireworks.

Projector123.com (www.Projector123.com) is the nationwide leader in LCD digital projector rentals, delivered overnight and starting as low as \$99 per day. Capable of HDTV quality, the projectors connect to laptops, DVD players, video game consoles, and cable or satellite TV boxes. At www.Projector123.com, customers benefit from secure online processing 24/7.

Los Angeles, CA (PRWeb) June 28, 2007 -- With a professional projector delivered overnight from Projector123.com, televised Fourth of July fireworks become an unforgettable, larger-than-life extravaganza. As the nationwide leader in projector rentals, Projector123.com delivers high-tech LCD projectors overnight, guaranteed. The projectors are surprisingly easy-to-use, popular with both "home users" and professional event planners alike and a lifesaver for party procrastinators.

Whether it's Macy's Fourth of July Spectacular or a locally televised "hometown" display, fireworks explode on the big screen in an impressive kaleidoscope of color thanks to the easy-to-use and affordable projectors from Projector123.com. Says Projector123.com President Cuyler Tremayne, "We've seen a trend towards more 'home users' renting our projectors not just for special events like weddings, anniversaries and birthday parties, but also to make a casual gathering, like the July 4th party, more special." He added, "Our overnight guaranteed delivery and around-the-clock customer support have been key to our success and customers' satisfaction."

Customers choose from state-of-the-art digital projectors with 2000 to 3000 lumens, capable of HDTV quality and backed by technical support available by phone around-the-clock. The projectors can connect to laptops, DVD players, video game consoles, cable or satellite TV boxes, and even to digital cameras, creating nearly unlimited possibilities for use.

The process is simple and quick: Visit Projector123.com, select one of two models, designate rental dates, agree to the terms and conditions, submit online payment, and wait for FedEx to arrive with your projector. When the party is over, just slip the projector back in its shipping case, replace the old shipping label with a return label provided, and drop it off or arrange for a FedEx pickup. Projectors can be shipped virtually anywhere in the United States.

To ensure peace of mind, rentals are scheduled to arrive via FedEx one day prior to the beginning of the rental period at no additional cost. Early delivery allows the customer time to get accustomed to the operation of the projector and to ensure it arrives as promised.

About Projector123: Projector123.com is a nationwide leader in digital projector rentals for business professionals, event planners and consumers. We understand that you only get one chance to make a first presentation, which is why we are committed to total customer satisfaction and ease of use. Offering secure online order processing 24/7, Projector123.com will always deliver on time, as promised. For more information, visit <http://www.Projector123.com>
