

Projector123.com Delivers Professional Quality Projector Rentals Overnight-Guaranteed with Rates Starting at \$99/day in the Pacific Northwest

Projector123.com (www.Projector123.com) now services Portland, Seattle and Spokane with overnight delivery of professional quality, high-tech LCD projectors for any purpose from a power-packed business presentation to a memorable wedding reception or a casual get-together to watch the big game. Capable of HDTV quality, the projectors can connect to laptops, DVD players, video game consoles and cable or satellite TV boxes. With Projector123.com, customers benefit from secure online order processing 24/7 with delivery of the projector on time and as promised.

Los Angeles, CA (PRWeb) June 19, 2007 -- For impressive presentation power delivered fast and hassle free, business professionals and consumers in Portland, Seattle and Spokane can rely on Projector123.com (www.Projector123.com). A nationwide leader in digital projector rentals, Projector123.com now offers overnight delivery throughout the Pacific Northwest of professional-quality LCD projector rentals that meet virtually any need. And its inventory is backed by an expert staff that can help customers select the right projector and offer simple solutions for achieving high definition projection quality.

Capable of HDTV quality, these sleek projector rentals have uses far beyond the boardroom. Digital projection can add a welcome power boost to a lecture at Washington State University, finesse to a photo montage at a wedding reception in Portland's RiverPlace Hotel, a theater atmosphere to a movie-themed slumber party, and high-definition clarity to a gathering of friends to watch the Seattle Seahawks in action.

Offering the ultimate ease in ordering and affordability with rates starting at \$99/day, Projector123.com provides a choice of LCD projector rentals with 2000 or 3000 lumens backed by technical support available by phone around-the-clock. The projectors can connect to laptops, DVD players, video game consoles, cable or satellite TV boxes and even to digital cameras, creating nearly unlimited possibilities for use.

And the process couldn't be simpler: Visit Projector123.com, select one of two models, designate rental dates, agree to the terms and conditions, submit online payment, and wait for FedEx to arrive. Once the presentation is complete, just slip the projector back in its carrying case, replace the old shipping label with a return label provided and drop it off or arrange for a FedEx pickup. Projectors can be shipped virtually anywhere, from a hotel or conference center to a university, wedding reception venue, home, restaurant or any other site.

To ensure peace of mind, rentals are scheduled to arrive via FedEx one business day prior to the beginning of the rental period at no additional cost. Early delivery allows the customer time to get accustomed to the operation of the projector and to ensure it arrives as promised.

All projector rentals from Projector123.com (www.Projector123.com) are shipped in an attaché-style case that doubles as a carrying case and a shipping carton. The case is free of any branding or extraneous logos which allows business professionals to maintain a sense of decorum and minimize distractions during the all-important presentation.

About Projector123: Projector123.com is a nationwide leader in digital projector rentals for business professionals and consumers. We understand that you only get one chance to make a first presentation, which is why we are committed to total customer satisfaction and ease of use. Projector123.com offers secure online order processing 24/7 and delivers on time, as promised. For more information, visit <http://www.Projector123.com> or call 888-866-6123.
